

# MIDNIGHT

## KENTUCKY BLUEGRASS

**Consistently Tops The NTEP Trials!**

### *It just doesn't get any darker!*

Midnight is a unique compact-type variety marketed by Turf-Seed, Inc. which possesses the qualities most desired by turfgrass professionals. Those qualities include:

- A very dark blue-green color
- Dwarf growth habit
- Very high tiller density
- Drought tolerance
- Strong overall disease

- resistance
- Good tolerance to close mowing
- More than 15 years of proven performance!

Probably the most outstanding feature of Midnight Kentucky bluegrass is its unusually dark blue-green color giving it a rich color even under low maintenance conditions. Its high tiller density provides a thick carpet that will stand up to the abuses of athletic fields and high traffic. Sod

*DeLalio Sod Farms, Long Island, NY*

producers and homeowners alike will enjoy Midnight's dwarf growth characteristics which result in fewer mowings and lower maintenance costs. This outstanding cultivar shows good resistance to leaf spot and stem rust, stripe smut and dollar spot. University trials have documented Midnight's heat and drought tolerance.
